

TRUST BANK

Schwab Managed Retirement Trust Income Fund™ (SMRT Income)

Unit Class I

All information as of September 30, 2022, unless otherwise indicated

Objective

The Fund seeks to provide total return for investors near or in retirement.

Fund Strategy

To pursue its investment objective, the Fund is designed as a single investment portfolio that maintains a policy allocation that is intended to remain static and does not seek to distribute income. The Fund may diversify holdings by investing in assets across a variety of asset classes, including, but not limited to, domestic equity, international equity, emerging markets equity, global real estate, short-term bond, intermediate-term bond, inflation-protected bond (U.S. TIPS), global bond, and cash equivalents. The Fund uses a blend of actively and passively managed sub-advised strategies to gain exposure to various market capitalizations and asset classes. The SMRT Income Composite Index is a blend of broad based market indices used to measure the Fund's performance.

In addition to age and anticipated retirement date, investors should consider their risk tolerance, personal circumstances and complete financial situation prior to investing in a particular target date fund. The principal value of the Fund is not guaranteed at any time, will continue to fluctuate up to and after the target date, and may not provide adequate retirement income.

Glide Path

The Fund maintains a policy allocation, defined in the investment guidelines, of 28% equity (including global real estate), 66% fixed income and 6% cash equivalents, which is intended to remain static. It is assumed that investors will gradually withdraw assets invested in the Fund over time; however the actual withdrawal rate will vary depending on each individual's circumstances.

Cash Equivalents Fixed Income Fixed Income Equity ON 20+ Years After Target Date IN RETIREMENT

The values of the target funds will fluctuate up to and after the target dates. There is no guarantee the funds will provide adequate income at or through retirement.

Diversification and asset allocation strategies do not ensure a profit and cannot protect against losses in a declining market. The Funds are subject to market volatility and risks associated with the underlying investments. Risks include exposure to international and emerging markets, small company and sector equity securities, and fixed income securities subject to changes in inflation, interest rates, market valuations, liquidity, prepayments, and early redemption. The Funds are built for investors who expect to start gradual withdrawals of Fund assets on the target date, to begin covering expenses in retirement.

Schwab Trust Bank charges an annual trustee fee equal to the "expense ratio" on all assets within the Fund, which includes fees charged on the underlying investments. Fees and expenses are only one of several factors participants and beneficiaries should consider when making investment decisions. The cumulative effect of fees and expenses can substantially reduce the growth of an investment. Please visit the Department of Labor's website for an example showing the long-term effect of fees and expenses at http://www.dol.gov/sites/default/files/ebsa/about-ebsa/ouractivities/resource-center/publications/a-look-at-401k-p

About the Sub-Advisors

Schwab Trust Bank uses an open-architecture sub-advised approach to investing. Fund investments are selected based on advice received from or products offered by industry recognized investment management firms ("sub-advisors"). The Fund may invest in other Schwab Trust Bank Collective Trust Funds™ to gain exposure to the underlying sub-advised strategies. See the "Disclosures" at the end of this document.

Past performance is no guarantee of future results. Investment return and principal value will fluctuate, and units, when redeemed, may be worth more or less than original cost. Fund performance includes the reinvestment of all income and is presented net of all fees. Current performance may be lower or higher than performance data quoted. Effective January 1, 2019, Charles Schwab Bank transferred trusteeship of its Collective Trust Funds to its affiliate CSTB, as successor trustee of the Funds.

The composition of the composite index is adjusted to align similarly to the Fund's strategic policy allocation in each asset class. The Fund will not attempt to replicate the index.

Exposure to some strategies may be indirect through investment in other Schwab Trust Bank Collective Trust Funds. The SMRT Funds™ invest in the Schwab Institutional Large Cap Value Trust Fund™, Schwab Institutional Large Cap Growth Trust Fund™, Schwab Institutional Core Plus Fixed Income Trust Fund™.

The Funds' Declaration of Trust authorizes securities lending and the Funds may invest in underlying strategies that participate in securities lending. There are various risks associated with securities lending including but not limited to the risks that a borrower fails to return some or all of the securities in a timely manner and investments acquired with cash collateral decline in value. Schwab Trust Bank, in coordination with the underlying strategies' investment managers, actively monitors any securities lending activity to minimize any potential impact to the Funds.

Schwab Trust Bank is responsible for voting proxies for securities held in the Funds. Glass Lewis has been retained to provide in-depth research, global issuer analysis, and voting recommendations as well as vote execution, reporting and record keeping services on behalf of the Funds. Schwab Trust Bank may solicit recommendations from advisors or sub-advisors which it retains with respect to the Funds. Schwab Trust Bank retains oversight for proxy voting and reviews its proxy voting guidelines at least annually.

Policy allocations are subject to change. Investors should consider their risk tolerance, personal circumstances and complete financial situation prior to investing in the Funds.
